Theme No./Item No.			
Theme name/Item name	MIRATONE Vibrant Series		
Purpose	(1) ☐ Creation of new market by new proposal (2) ☐ Category entry into growing market or giant market (3) ☒ Line extension for the existing product group (4) ☐ Cost reduction of the existing products (production site transfer) (5) ☒ Renewal of existing Products to improve quality	*Priority point (1) ☐ Emphasis on price (2) ☒ High quality (3) ☐ Other ()	
Launching Date	Februari 2020 (Temporary)		

Market situation/background of request

[Market Situation]
 --> Total permanent hair color market is growing by 21,8% in 2017, thus also expected growing in the future.
 --> For specific brand which launch Vibrant color (Extreme color range) has positive growth in 2017. (Nielsen Retail Index,

[Competitor Situation]
 --> in Indonesia, hair color market divided in three categories; Basic color (mainly for covering grey hair; Tancho, Eagle, Hi Top), Natural basic color (darker color range; NYU, Garnier, L'Oreal) and Vibrant color (Vivid color & colorful range; Samantha, Miranda, Feves).
 --> Leading in total hair color market is Miranda with 39% share with its Vibrant-Vivid color range, Hi-Top (12%) and Tancho (8%) share in Basic cover grey color, but NYU who is a new comer since 2016-2017 already grab 688.5% growth
 --> brand which then released only basic color, now launch also natural to vibrant color.

[Company Situation]
 --> in MID, we have Tancho (Cover grey hair) & Miratone (Natural basic color). Tancho has rather big share (8%) in hair color market, but Miratone has below 2% share.
 --> Miratone's Brand Awareness (TOM 1%) & Brand Usage Rate (BUMO 1%) resulted from high switching pattern among other brand user, Miratone have no loyal user (Quantitative Research in 2017).
 --> but, Miratone has rather positive image in consumer's mind. They already perceive Miratone as Trendy/Modern Brand (FGD research in 2018)

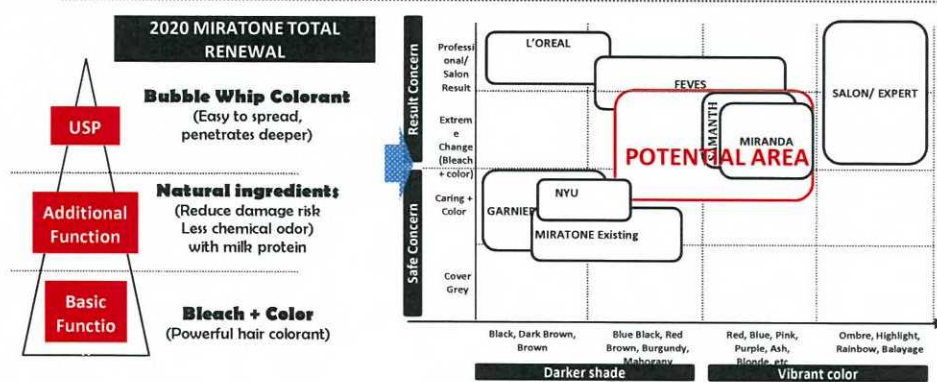

[Consumer Situation]
 --> Consumer wants for hair color is also divided into two wants: consumer who concern to safety when using hair colorant, while the rest concerned to hair final result.
 --> consumer who seek for safety hair colorant tend to use only natural ingredients/natural image hair colorant, but those product known by its final result's weakness which color result usually below expectation, far from color on its
 --> on the other hand, in majority consumer who use hair colorant expect the hair changing the way it is on each pack. The realtest the better. So they use hair colorant more than one process or using hair bleaching before hair colorant.
 --> but it emerges several dissatisfaction after product usage; the hair colorant cannot give the real color as promised in packaging, or they need to use hair colorant product more than one or two times process to achieve real color that they want. However, multistep hair colorant usually bring damage after usage.
 ==> **Miratone can offer the product which gives real vibrant color result as on pack but also gives safety image to the consumer.**
