Theme name/Item name GATSBY FACE WASH SERIES RE-STRUCTURE	
Purpose	(1) ☐ Creation of new market by new proposal (2) ☐ Category entry into growing market or giant market (3) ☐ Line extension for the existing product group (4) ☐ Cost reduction of the existing products (production site transfer) (5) ☒ Renewal of existing Products to improve quality *Priority point (1) ☒ Emphasis on price (2) ☐ High quality (3) ☐ Other :
Launching Date	November 2020
Market situation / Background of request	Company Situation, Competitor Situation Market Condition - Face Wash still become 2nd big category in Men's grooming product. - GARNIER Men still become market leader in face wash category with share more than 40% and keep growing since 2016. - Followed by Men's Biore, Pond's Men, Nivea Men, Vaseline Men, and GATSBY in no.6 position. Competitor Situation - GARNIER Men as leader at men face wash market, giving much choices for consumer to fulfilling consumer need compare with other face wash product at market. - In 2018, Pond's men do renewal toward their face wash product and Axe was launching for face wash product with 4 variant. - And in 2019, Men's Biore and Nivea Men do renewal to their face wash product. Those product also launching TVC to informing their new face wash product. Company Situation - GATSBY already do renewal for GATSBY Cooling Face Wash in August 2017 and launched GATSBY Facial Micro Foam in March 2018. But, after launched both series GATSBY still cannot gain more share in market. - GATSBY Cooling Face Wash product current condition, still perceived as product with basic ability (high cleansing and fresh). - While, GATSBY Facial Micro Foam current condition still not establish in market and still not accepted by consumer. That condition because consumer still not understand toward product benefit from new type of face wash which is practicality, thus consumer only understand about deep cleansing ability. Other than that, position of GATSBY Facial Micro Foam in shelving not stand out, hence consumer not aware for availability of the product. Consumer Situation - Skin basic problem from consumer is oily skin. (source: multi countries research 2018) - From all the problem on skin such as dirt, acne, dull, and oil. Oil become consumer high concern. Because with oil appear on face, this condition able to trigger problem to appear on skin and causing dissatisfaction toward their skin appearance. - Hence consumer want a product to clean source of problem (excessive oil) and prevent/overcome specific skin problem, such as stickiness, dull, acne, or blackhead. - Other than dissatisfaction toward their skin condition, from CLT research we found there is dissatisfaction in term of washing face process. - That problem is at the process of making foam (give water to formula and scrubbing formula untill totally foam). - After consumer know for the pump type existence, more than 50% able to know that pump type is more practical and they want to move from their current face wash (CLT Research).
Target	Consumer (1) ☒ Male (2) ☐ Female Age group 17~21 year Social Economic Class B~C

	Series Concept Facial Wash series with combination of Cooling Sensation and Black Tea as gentle astringent that able to shrink skin pore to control oil on face as source of men skin problem without causing skin become dry, for total clean, no sleek, and skin free from problem.																																																								
Proposed concept	Renewal Scheme: Current GATSBY Face Wash have two type, which is GATSBY Cooling Face Wash (tube type) and GATSBY Facial Micro Foam (pump foam type). In this renewal scheme, we want to do restructure for total GATSBY Face Wash, combine both series into one series and improve for both type.																																																								
	Different Function Cool Oil Trouble Combat Focus on Oil problem that perceived as source of other problem by Cooling Sensation and Black Tea. Free from oil, free from trouble! Additional Function No Sleek Feeling Giving no sleek feeling after rinsing face. Main Function High Cleansing Ability Cleanse dirt and excessive oil thoroughly 1. GATSBY Cooling Face Wash Tube Type Strong ability to remove and control excessive oil with: - SCRUB + COOL + BLACK TEA as OIL TROUBLE COMBAT that able to remove and defence from excessive oil Perfect Clean Oil Control Bright White New Function New function: Triple Function Face Wash product with mask function inside. Used like usual to get clean skin. Let the foam stay fro 30 seconds as a mask to soften and remove comedo or 1 minute to minimize skin pore, clean skin till 3 level. Formula cost: All exc. Bright White Rp 30.000 / kg Bright White Rp 25.000 / kg 2. GATSBY Cooling Face Wash Foam Type Giving practicality in washing face with: JET FOAM CREATOR - With JET FOAM CREATOR that able to produce foam in single push - Remove and defence skin from excessive oil with BLACK TEA Perfect Clean Oil Control Formula cost: Rp 15.000 / kg
