Consumer Situation - Before Covid-19, women fear to go out because of <u>the sun and pollution</u>. However, during this transition phase (New Normal), <u>corona virus is the main thing they feared. Therefore, they need extra protection facing the new normal era.</u>  - In Indonesia, people washing their hands for 8.1 times/ day and using disinfectant for 4.7 times/ day to protect themselves. Even though people already took extra precaution, washing hand and using disinfectant is not enough. People shower more during this transition period, due to fear getting infected by the virus. - Women, also starting to need a multipurpose sanitizer that could sanitize their goods for extra protection.  - Covid-19 gives a huge impact towards towards the beauty industry. Nowadays, women pays more intention on skin care product and body care, for example especiall in face wash, face moisturizer and body lotion. This because women need to cleanse out their face and this made their skin dry that us why they need a moisturizing product.																																				
Consumer Situation - CORE TARGET : For skin care users in their 20 – 30 years old, Middle SES - CHARACTERISTIC : Active women who are concern about beauty, but most important is health and cleanliness as well as their skin condition. - Based on these insight, during this transition period, the needs of multipurpose sanitizer is increasing, also women need a product that can moisturize their skin, causes by frequent shower and using disinfectant products. [Prodev research online July, 2020]
