	*Launch Date Jul 2022				
*Objective / Aim		•Insertion halal + VI logo into the GB Moving Rubber Spiky Edge & Grunge Mat •To anticipate the enforcement of the halal regulation, if it is actually implemented in the future, it will have a considerable impact.			
Goal indicator/ When & How to measure	[Goal indicator]			[Measurement timing]	
	• keep existing sales half a year after halal formula replacement			Dec 2022 [Measurement method] sell in	
Background	Market Situation - Moving rubber is sold in limited premium chanel with expensive price so sales contribution it self is not so big. But it is a few variants in GB brand having strong contact point with innovator in styling market.				
	Competitor Situation - Most of competitor brands have already registered halal to printed the Halal Mark on the back of the product for several years. - Paragon launch new brand Kahf into the male market with the brand identity of halal . They are communicating consumers with				
	Company - GB cannot insert halal logo because has moving rubber which is not halal formula in the same brand (as regulation for halal insertion: all sku of Brand must be halal).				
	Consumer Situation - Year by year Indonesian environment/government make it more strict to faith and follow halal. This situation boost the perception that something " haram " is felt as bad thing.				
	Regulation - Year by year halal regulation become strict. In current situation halal have expanded the regulation range not only about formula, production but also package. Then as the prediction, there is the possibility that halal regulation will become more strict in 2026.				
	Future's Prospective As the quick response for strengthening consumer's halal faith which is boosted by halal competitors, environment / government and regulation, we replace the formula of moving rubber (spiky edge and grunge matte) with halal formula to realize to register GB brand as halal . While, discontinue wild shake by too small sales .
